Short Biography (up to 200 words):

Bogdan Stojanović graduated from the Faculty of Political Sciences, International Relations, in Belgrade with the highest grades. At the same faculty he has successfully completed MA studies of International Security. He earned PhD title at the Faculty of Political Sciences, Department for

International and European Studies. He has been working as Advisor at the Ministry of Justice within the Bureau of the Enforcement of Penal Sanctions for more than 4 years where he was in charge of intelligence in penitentiary facilities. Bogdan has experience in implementation of numerous high-risk projects in the Western Balkans, especially in the field of security risks. He has published many academic articles, including his first scientific book entitled “The Balance of Nuclear Power between USA and Russia (USSR)”. This book is evaluated as a textbook for nuclear issues by leading security experts. Furthermore, Serbian Armed Forces included this book on mandatory reading list. Recently, Bogdan published second scientific book entitled “Theory of Denuclearization: Why States Give up of Nuclear Weapon Programs”.
